Just discussed. We will remind them of when we had Interagency Review and that this is fyi. And tell them when we plan on releasing.

it would be good to know more about the "ground rules" before we share anything. we won't have an NCEA-cleared draft until July.

Yesterday NCEA agreed to share w OMB versions of assessments about to go to a second peer review. No clarity on ground rules (such as whether fyi or for comment). That will include EtO.

I assume the sooner we do that, the less disruptive of our schedule.

When could we do that?

I'll suggest we could start contract process even while OMB looks at version.
